

Collection
2023

An aerial photograph of a lush green landscape. A winding river flows through the center-left of the frame. The surrounding area is covered in dense green vegetation, with several large, rounded trees scattered throughout. The lighting is warm, suggesting late afternoon or early morning, with long shadows and a golden glow. The text is overlaid in the upper left quadrant.

SUSTAINABILITY

— OUR PERSPECTIVES

EN_

Design

We seek a good design through products that combine sustainability, form, function, quality and authenticity. We travel all over the world looking for inspiration and adapting the latest trends in gardening and deco.

Natural products

To create our collections we use sustainable materials, from clay up to natural fibers, such as rattan or bamboo. These materials are natural and renewable, and they are made in a sustainable and respectful way with the environment.

Artisans

We collaborate with artisans in Vietnam, Indonesia and Tunisia, among others. Work with expert artisans from all over the world opens the doors to inspiration and knowledge about new methods of production. Many of our pieces are unique thanks to the artisanal process that we follow.

ES_

Diseño

Buscamos un buen diseño a través de productos que combinan sostenibilidad, forma, función, calidad y autenticidad. Viajamos por todo el mundo buscando inspiración y adaptando las últimas tendencias en jardinería y deco.

Productos naturales

Para la creación de nuestras colecciones utilizamos materiales sostenibles, desde la arcilla hasta las fibras naturales, como el ratán o el bambú. Estos materiales no solo son naturales y renovables, sino que se elaboran de forma sostenible y respetuosa con el medio ambiente.

Artesanos

Colaboramos con artesanos en Vietnam, Indonesia y Túnez, entre otros. Trabajar con expertos artesanos de todo el mundo nos abre las puertas a la inspiración y el conocimiento sobre nuevos métodos de producción. Muchas de nuestras piezas son únicas gracias al proceso artesanal que seguimos.

FR_

Design

Nous cherchons un bon design à travers de produits qui combinent durabilité, forme, fonction, qualité et authenticité. Nous voyageons partout dans le monde à la recherche d'inspiration pour adapter les dernières tendances en jardinerie et déco.

Produits naturels

Pour la création de nos collections nous utilisons des matériels durables, comme l'argile ou les fibres naturelles, comme le rotin et le bambou. Des matériels non seulement naturels et renouvelables mais aussi élaborés de façon respectueuse avec l'environnement.

Artisans

Nous collaborons avec des artisans du Vietnam, Indonésie et Tunisie, entre autres. Travailler avec des experts du monde entier nous permet d'ouvrir la porte à l'inspiration et au savoir faire sur de nouveaux méthodes de production. Beaucoup de nos articles sont uniques grâce au procès artisanal que nous suivons.

SUSTAINABILITY

— OUR PERSPECTIVES

Long life products

EN_ For us, the sustainability starts with durable designs with attractive lasting, able to challenge any temporal trend.

ES_ Para nosotros, la sostenibilidad comienza con diseños duraderos con un atractivo perdurable, capaces de desafiar cualquier tendencia temporal.

FR_ Pour nous la durabilité commence avec le design. Un design séduisant et capable de défier les tendances temporelles.

Natural materials

EN_ We strive to use materials that come from natural resources and minimize the use of harmful chemicals.

ES_ Nos esforzamos por utilizar materiales que provienen de los recursos naturales y minimicen el uso de sustancias químicas.

FR_ Nous nous efforçons pour utiliser des matériels qui proviennent de ressources naturelles et minimisant l'utilisation de substances chimiques.

Products created with vegetable energy

EN_ Most of our products are handmade and elaborated with traditional and natural methods using vegetable energy such as husk of rice.

ES_ La mayoría de nuestros productos están hechos a mano y se elaboran con métodos tradicionales y naturales que utilizan la energía vegetal como la cáscara de arroz.

FR_ La plupart de nos produits sont faits à la main et ils sont élaborés avec des méthodes traditionnelles et naturelles, utilisant souvent l'énergie végétale, comme la balle de riz.

Certificates and eco-labels

EN_ Many of our products are ecologically certified. Our goal is to increase the percentage of these products in our collection in short term.

ES_ Un gran número de nuestros productos están certificados ecológicamente. Nuestro objetivo es aumentar el porcentaje de éstos productos en nuestra colección a corto plazo.

FR_ Un grand nombre de nos produits sont certifiés écologiquement. Notre objectif est d'augmenter le pourcentage de ces produits dans nos collections à court terme.

Flat packaging. Space optimization

EN_ Our sustainability police is committed to flat packaging allowing optimization of space in any logistics center and reducing transportation.

ES_ Nuestra política de sostenibilidad apuesta por un flat packaging permitiendo la optimización del espacio en cualquier centro logístico y reduciendo el transporte.

FR_ Notre politique de développement durable parie sur le flat packaging, permettant ainsi l'optimisation de l'espace dans les centres logistiques et la réduction du transport.

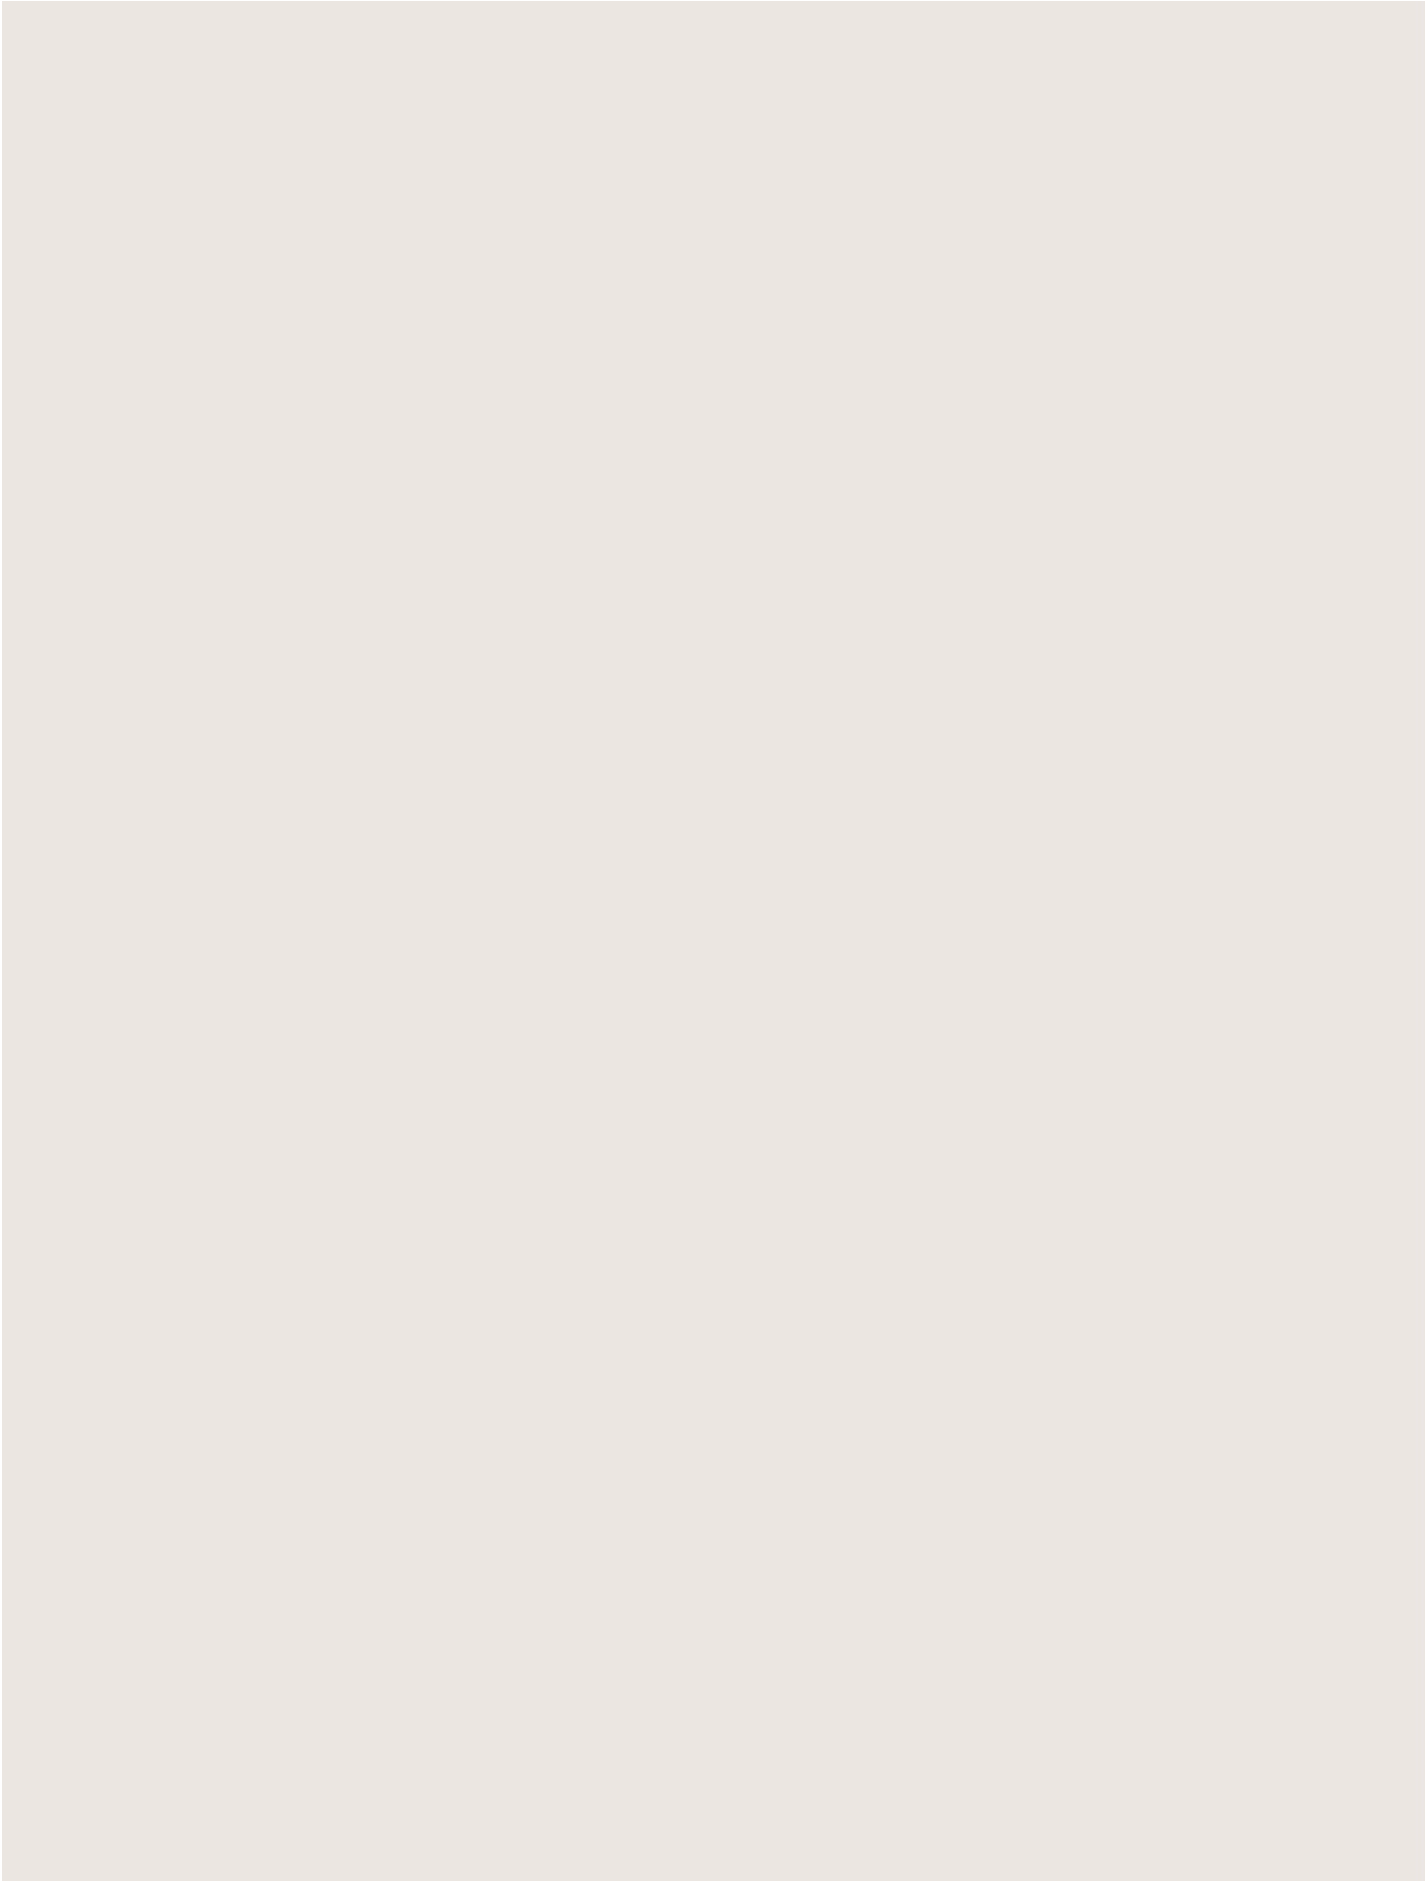

Planters that bring life

EN_ Our pots and planters bring nature into any space. Contact with nature is essential for human well-being because it is an innate natural and biological connection, it also contributes to renewal of the air.

ES_ Nuestras macetas y jardineras introducen la naturaleza en cualquier espacio. El contacto con la naturaleza es esencial para el bienestar humano porque es una conexión biológica innata y natural, además contribuye a la renovación del aire.

FR_ Nos pots et jardinières introduisent la nature dans n'importe quel endroit. Le contact avec la nature est essentiel pour le bien-être humain. Une connexion biologique innée et naturelle qui de plus contribue au renouvellement de l'air.

ABOUT US

— HISTORY

EN_ We are a company dedicated to the production of gardening and decoration accessories, oriented to B2B sales, for those businesses that are within the same scope or sector (gardens, florists, interior designers, architects...). Based in Castellar del Vallès, Barcelona.

Herstera Garden was founded in the early 70s in Germany, as a small factory of metal lattices and garden supports for balconies. Thomas Hertelt, in the early 90s attracted by the growth and modernity of the Barcelona Olympic Games wanted to develop a new conception of the sale of these products, to create an alternative business. In 1992, Jordi Sabaté joined this project, as a partner and shareholder, bringing new ideas and perspectives.

Since then, in Herstera Garden we have continued travelling around the world looking for inspiration and adapting to our collection the latest trends in gardening and retail creating a wide range of products in our catalogs. All this, through a collective team vision and from a perspective that mixes innovation with the most traditional materials and processes.

During the last years we have given more prominence to the design, introducing new lines of own products, developed by our R&D department.

ES_ Somos una empresa dedicada a la producción de complementos de jardinería y decoración, orientada a la venta B2B, para aquellos negocios que se encuentran dentro del mismo ámbito o sector (gardens, floristerías, interioristas, arquitectos...). Con sede en Castellar del Vallès, Barcelona.

Herstera Garden fue fundada a principios de los años 70 en Alemania, como una pequeña fábrica de celosías metálicas y soportes de jardinería para balcones. Thomas Hertelt, a principios de los años 90 atraído por el crecimiento y modernidad de la Barcelona de los Juegos Olímpicos quiso desarrollar una nueva concepción de la venta de estos productos, para crear un negocio alternativo. En el año 1992, Jordi Sabaté se unió a este proyecto, como socio y accionista, aportando así nuevas ideas y perspectivas.

Desde entonces, en Herstera Garden hemos seguido viajando por todo el mundo buscando inspiración y adaptando las últimas tendencias en jardinería y retail a nuestras colecciones, creando así un amplio abanico de productos en nuestros catálogos. Todo ello, a través de una visión colectiva de equipo y desde una perspectiva que mezcla la innovación, con los materiales y procesos más tradicionales.

Durante los últimos años hemos querido otorgar más protagonismo al diseño, introduciendo así nuevas líneas de productos propios, desarrollados por nuestro departamento I+D.

FR_ Nous sommes une entreprise dédiée à la production d'accessoires de jardinage et décoration, orientée à la vente B2B, pour les entreprises qui se trouvent dans le même domaine ou secteur (jardinerie, fleuristes, décorateurs, architectes ...). Basé à Castellar del Vallès, Barcelone.

Herstera Garden a été fondée au début des années 70 en Allemagne, en tant que petite usine de treillis métalliques et de supports de jardinières de balcon. Thomas Hertelt, au début des années 90, attiré par la croissance et la modernité de la Barcelone des Jeux Olympiques, a voulu développer une nouvelle conception de la vente de ces produits, pour créer un business alternatif. En 1992, Jordi Sabaté rejoint ce projet, en tant qu'associé et actionnaire, apportant ainsi de nouvelles idées et perspectives.

Depuis lors, chez Herstera Garden, nous avons continué à parcourir le monde à la recherche d'inspiration et à adapter les dernières tendances du jardinage et de la vente au détail à nos collections, créant ainsi une large gamme de produits dans nos catalogues. Tout cela, à travers d'une vision d'équipe collective et dans une perspective qui mélange l'innovation avec les matériaux et processus les plus traditionnels.

Ces dernières années, nous avons voulu donner plus d'importance au design, introduisant ainsi de nouvelles lignes de production propre, développées par notre département R&D.

Thermal Insulation Boards & Waterproof Base

- Thermal insulation boards are placed on the four inner walls of the planter.
- They provide a strong thermal break between the steel and the roots, protecting them from high temperatures.
- They ensure adequate drainage towards the waterproof bag and protect the base from waterlogging.
- Las planchas de aislamiento térmico se colocan en las paredes internas de la jardinera.
- Proporcionan una fuerte rotura térmica entre el acero y las raíces, protegiéndolas de altas temperaturas.
- Asegura un drenaje adecuado hacia la bolsa impermeable y protegen la base de encharcamientos.
- Des panneaux d'isolation thermique sont placés sur les parois intérieures de la jardinière.
- Ils assurent une forte rupture thermique entre l'acier et les racines, les protégeant des hautes températures.
- Ils assurent un drainage adéquat vers le sac étanche et protègent la base de l'engorgement.

DECO CORNERS

— IDEAS PARA
CREAR TUS CORNERS

Tres maneras de organizar tus corners:

- 1 Triangulación de los colores de la colección.
- 2 Un módulo para cada gama de color.
- 3 Triangulación de los productos de mimbre con otros colores de la colección.
